Hello every one welcome to the usability testing of redesigned Sri Lankan airlines prototype version 0.1. Today we have (Binara Dewapura / Yasasmi Dhanarathna) here today. Dear sir / madam , thank you for joining with us here today and giving us your valuable time. So without further ado. Lets get started with the process.

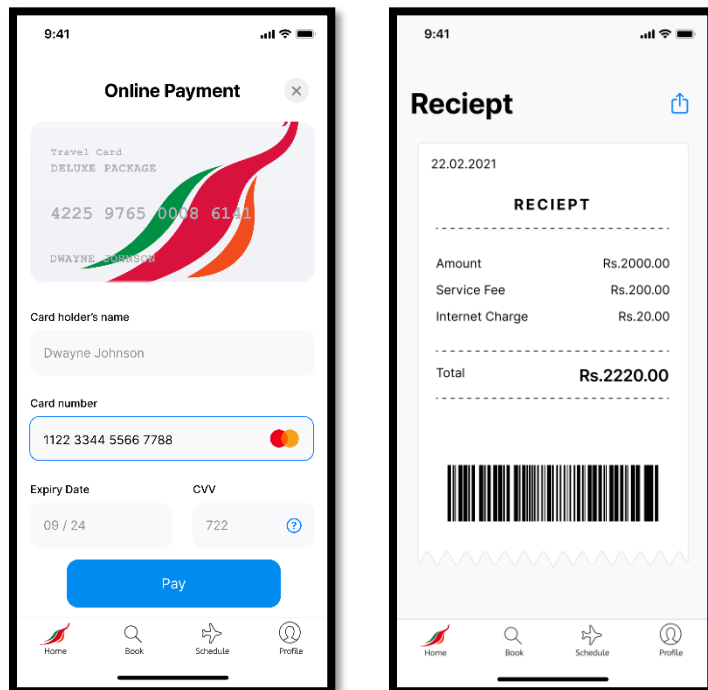

That's it for the usability testing session. Thanks again for joining with us giving your vital opinion. Hope to see you with prototype V.02

6.Prototype v.02

- The payment interfaces were changed in order to give an intuitive experience of for the customer. Also a confirmation receipt was added.

- The placeholders were changed to text labels in the login interface. Also icons were added to complement the lack of placeholder

- A confirmation to the check in was added so that the user gets a confirmation message after checking in
